Article title:

Electrochemical behaviour of N-aminopyridinium, and the viologens N,N'-diamino-4,4'-bipyridilium and N,N'-bis(4-aminophenyl)-4,4'-bipyridilium in aqueous acid: - towards the formation of polymer hybrids of pyridine and aniline

Volume/Issue, Cover date:
462, 1, 8 February 1999

ISSN:
00220728

Published in journal:
[Journal of Electroanalytical Chemistry](#)

Authors:
Monk, P.M.S., Hodgkinson, N.M.

Keywords:
Electrodeposition, Viologen, Polyaniline, Bipyridilium, Conductive polymer

Additional information:

Abstract:
hits in the abstract field are not shown
